Optimize the Motor or Pump Life

Smooth Start & Stop your low rated Motors & Pumps for longer Life, and no breakdowns

D3 EMS1 - Electronic Soft Starter for small motors

Use Electronic Soft Starter instead of DOL Starter & Control Peak Demand.

Minilec, the pioneers in pump protection & control now offer **Electronic Soft Starter** for AC motors designed for use with 3-phase squirrel cage induction motors.

Jerk less start & stop

D3 EMS1 limits the starting current avoiding a peak demand situation and also ensures very smooth and steady acceleration with controlled time. This ensures longer motor life.

Better alternative to DOL Starter

D3 EMS1 eliminates the need of separate DOL Starter.

Simple to Install than a DOL starter

D3 EMS1 is DIN rail mounted compact & can be wired up very easily.

Applications:

D3 EMS1 is useful for Motors & Pumps rated from 0.5 Amp to 8 Amp (full load current), and used for materials handling –conveyor drive motors, Water Supply Pumps, Process Pumps, Blowers, Machines Tools & Special purpose machines, can be very conveniently and softly operated by **D3 EMS1**.

Another model of Electronic Soft Starter type: EMS-2000 is also available suitable upto 60 HP rating pumps / motors.

EM No: E M D3 EMS1
